

No. 3163-79 SONORA ONYX BOOKENDS SET OF 2

Hand-crafted natural onyx bookends. Carved from onyx that formed over 100 million years ago, this product gets its unique colorization and parallel banding from the pressure and heat of tectonic activity that created the Sierra Madre mountain range. Beautiful colors of black, grey, and caramel form striations that make each piece one of a kind. No two pieces will be alike.
